

## Debentures Go Down Again, Position Good, Is Auditor's Report

Assistant For Office And Better Office Are Recommended To Council By Auditor George Vale

A bright picture of Newmarket's financial position was presented to the town council on Monday evening by N. L. Mathews, K.C., as treasurer. Mr. Mathews gave the council the "high lights" from the report of the auditor, George Vale.

"The debenture liability now stands at \$169,900, with \$20,000 paid off last year," said Mr. Mathews.

"Against arrears of taxes, uncollectible and uncollected, we have a reserve of \$12,000," said the treasurer.

"That's a buffer," commented Mayor Dr. L. W. Dales.

"It's sound financing," said Reeve Fred A. Lundy.

"The highest the debenture debt ever was \$533,000 in 1926," said Mr. Mathews.

"What is the new well to cost?" asked Councillor Frank Bowser.

"The well is to cost \$18,000 and the reservoir \$18,000," was the reply.

"What was the effect of the reduced discount on taxes?" asked Councillor Frank Bowser.

"We collected a bigger proportion of taxes than ever," said Mr. Mathews. "The arrears were less."

"Conditions are better," said Councillor A. D. Evans.

"How much did we save?" asked Mr. Bowser.

"One thousand dollars," said Mr. Mathews.

"We will have to go back to the bigger discount when times get worse," said Mr. Evans.

"I don't know," said Mr. Mathews. "Interest rates are down. They're still getting a good rate of interest."

A surplus of \$3,873 in the light department, compared with a deficit last year, and a surplus of \$3,518 in the water department, compared with a deficit last year, were reported by Mr. Mathews.

## WILL SURVEY YORK COUNTY FARM SET-UP

COMMITTEE WILL GIVE SERVICES FREE. TOWN-SHIPS ORGANIZE

WILL AID OUTPUT

Hon. P. M. Dewar, minister of agriculture, has asked that an agricultural survey be taken with reference to the personnel on the farms, the labor situation in detail, the plans for crops and livestock in 1942 as compared with 1941. It was felt that if more accurate information regarding help could be secured it would enable the government to better organize their plans to provide the necessary help on farms this coming season.

Britain is asking for at least 600,000,000 lbs. of bacon and pork products, 30,000,000 dozens of eggs and 112,000,000 lbs. of cheese. This amount is likely to be increased if the war in the Pacific cuts off Australia and New Zealand shipping, which carried huge quantities of lamb and three or four times as much cheese as Canada has been shipping.

The agricultural representative of each county has been asked to appoint a committee along the lines of the county committees functioning so effectively in Great Britain, with all members serving without remuneration. York County Representative W. M. Cockburn of Newmarket has selected one man for each of the ten townships, together with the warden, the chairman and secretary of the agricultural committee of county council, the president and secretary of the Federation of Agriculture.

In conducting the survey each township representative will act as convener for his territory and arrange for one man to assist him in each rural school section, who in turn may enlist the help of other farmers.

## Best Job In Canada For Loan Done On Marsh, York Boasts

Newmarket Does Well In Purchases of Victory Bonds, Rural Municipalities Show Progress Too

With an objective of \$1,600,000 North York had gone 42 percent of the way up a stiff hill by last night, The Era learned at Victory loan headquarters from H. L. Trapp, organizer.

Newmarket is within \$100,000 of its \$250,000 objective. The northern rural municipalities are working hard and doing well, headquarters said.

"One of the best jobs in Canada has been done on the Holland Marsh," Mr. Trapp said.

"From 75 residents of the marsh we expect to have 75 applications," was the remarkable report which George Horlings made to a meeting of North York canvassers at Maple yesterday.

"These people, most of them Europeans, feel that they cannot be good Canadian citizens unless they support Canada's war effort and go all-out," said Mr. Horlings.

## WAR VICTIMS WIN HOCKEY FEUD NIGHT

WOODWORKERS ARE 4-3 VICTORS OVER SPECIALTY'S MEN OF STEEL

FUND GETS BOOST

By THE "SNOOPER"

Employees of the Office Specialty did their bit in a sporting manner and in grand style at Stan. Smith's ice palace last Thursday evening.

When Manager Wes. Gibney's Woodchoppers competed against Manager Eddy Gibson's Metalmen, the result was the most thrilling game of senior calibre to be played here for some time. The game itself was not only fast but the teams were so evenly matched that ten minutes of overtime play was necessary to decide the issue.

The game was exceptionally clean, despite the rivalry between the two clubs, with Referee "Bob" Peters handing out but three free tickets. Two of them were chalked against the "woodmen." Before the bell challenged the teams for the opening frame, Captain Johnny O'Halloran's wooden soldiers were 9-3 favorites over Captain Bob Benville's ironmen but once play began the "Snooper" can tell you that he would not bet his everyday shirt either way.

Gordon L. Manning, managing director of the Office Specialty Co., faced off the little rubber disc following the playing of "The King" by the Citizens' band and from then on it was a battle royal.

The "wood" line of Boyd, Neufeldt and O'Halloran crossed sticks with the metal line of Dennis, Tidman and Benville, and neither line were able to penetrate the other's defence as they raced up and down for scoring opportunities.

The metal men were the faster (Page 2, Col. 6)

## "Canadian People Decide Extent Of Canada's Effort"

What People Do Not Spend On Themselves Is Help In Converting Canadian Industry To War

"So far as Allied grand strategy is concerned, the calamities that have occurred to us, apart from a few mistakes, are as nothing compared with the calamities that might have befallen us," John Collingwood Reade, Toronto newspaperman and radio commentator, told the Lions club on Monday evening. He spoke in support of the Victory loan.

Councillor Frank Bowser introduced Mr. Reade. Mayor Dr. L. W. Dales, Victory Loan Chairman Aubrey Davis and Organizers H. L. Trapp and James Davis were among the guests.

Mr. Reade, who flew across by bomber last August and returned in October, stated that Britain had installed anti-fire equipment in her cities that was the equivalent in effort of several thousand tanks. Another big job done, he said, was the re-equipping of the auxiliary fleet to stand off attack as it carried on its coastwise trade.

"The port of London, in spite of all that has been done against it, is able to clear each week a larger tonnage than any other port in the world," said Mr. Reade.

While the British people had been able to stand off defeat, and to maintain their position from the Middle East to Burma, "it is only by the slimmest margins that they have been able to do these things."

"The people in the British Isles are happier now than I have ever seen them," said Mr. Reade. "They have undergone a social revolution without outward disturbance. The poor were never better taken care of. The influential recognize their responsibility. The rich have lost much of their wealth but they have been recompensed in brotherly love. All have been through the fire together."

"Living conditions are hard but not unendurable. There is little butter for the bread and (Page 8, Col. 6)

## "Don't Wait Till Schools Bombed To Buy Bonds"

WHAT NAZI WOULD DO TO COUNTRY PICTURED BY M. O. H.

"The outlook is mighty serious for the Allies and it is up to every one of us to go into debt to buy Victory bonds," Dr. J. H. Wesley, Newmarket's M.O.H. and senior physician, stated this week.

"Picture the King George school bombed some morning in the near future, in accordance with the prophecy of Mith. Hepburn, the premier of Ontario," said Dr. Wesley.

"None of us knows just how likely such a calamity is to happen, but one thing is sure, we are going around as though there were no war on, and it will be only after some major catastrophe happens to Canada, and a great number of people are killed, that we are going to wake up to the fact that our very civilization is being threatened by this present war, and since its commencement has been becoming more serious every day."

"These foreign devils that we are fighting in the world war are under a different government. They have to fight. They are regimented for the purpose of the state from the day of their birth, and in fact, even their birth is implemented for the state by segregating and their young women and breeding them to the selected males of their country, as our present-day stock breeders select the best and choicest of their stock for breeding purposes, in order to raise a superior line of the breed. So the German children are given by their parents to the state to be cared for and raised and

educated for their army.

"They are taught, even by the insignia over the school entrances, that they are born to die for Germany. In this process of evolution, the weaker, defective ones, are never allowed to come to maturity, but are split away to one of their many lethal chambers, to avoid the trouble and expense of raising them, and their always being an embarrassment to the state. Think what Germany would do with all our charitable institutions if we are ever subjugated to them. Even our churches would be demolished and the materials used for war purposes and the Christians denied the privilege to worship the one and living God.

"Our democratic country believes in equal rights for all, the protection of the weak against the strong. 'If you wish to get a first-hand knowledge of the cruelty, the horror and perversion of the morality of the rising generation in Germany, you have only to read an article in the Reader's Digest, written by an American who was for ten years president of the American Colony School in Berlin."

## M.O.H. USES SKELETON, TALKS ON FRACTURES

An instructive lecture on fractures and a practical demonstration of the first-aid care of fractures, was given by Dr. J. H. Wesley, M.O.H., following an address by Capt. A. H. Woods, at the Red Cross war emergency course in the town hall on Monday evening. Mrs. J. C. R. Edwards, president of the Home and School Association, was in the chair.

The lecture was made particularly interesting as Dr. Wesley used a human skeleton to illustrate his talk.

The first-aid must first find out whether the injury is a sprain, a dislocation or a fracture, before he is in a position to give proper first-aid treatment. Dr. Wesley explained. He then outlined the various kinds of fractures, describing the simple fracture, the greenstick, the comminuted or multiple and the compound fracture. He described the symptoms by which fractures are detected and then gave a practical demonstration of the first-aid treatment for fractures of various bones.

With the assistance of Orley Hayes, Dr. Wesley showed the group how to apply splints and how to bandage various bones which might be fractured and how to give the patient the greatest comfort, until medical help could be obtained.

At the conclusion of the lecture, Mrs. R. J. Rogers, R.N., ably reviewed the material given in the lecture, emphasizing the part of the first-aid worker in an emergency. A vote of thanks to Dr. Wesley was moved by John Scott of the public school staff.

## And, By Jingo, We Have The Money Too, Says Speaker

SPEECH AND CONCERT COMBINE TO PROMOTE LOAN CAMPAIGN

"Let us shake off this lethargy because 'it may happen' to us," declared John F. Boyd, Toronto, in a Victory Loan promotion address in the town hall on Tuesday evening.

"Hitler has had but two defeats, the failure of his Luftwaffe over Britain and his failure to crack the Russian army," Mr. Boyd said. "We do not know what is to happen next or what is next in the line of Axis march, but five and a half million of our cousins in Australia and one and a half in New Zealand are next door to Java and Singapore."

"Are you going to let the Germans or the Japs give their boys more than we give ours?" he asked. "There is no unemployment today—it is virtually non-existent, so that we have the money to put into these Victory bonds."

Mr. Boyd's address was sandwiched into a swift-moving and entertaining variety show, sponsored by the soldiers' comforts committee of the Newmarket Veterans' Association.

The public crowded the town hall to the doors for the occasion and was pleased with the two hours of entertainment provided by the "Toronto Masquers," a clever troupe of entertainers whose repertoire included dancing, singing, comic skills and a magician with a full bag of tricks.

Connie Vernon, clever impersonator and comedienne, was the star of the show.

Boy Scouts helped with the ushering.

## COUNCILLORS DISCUSS TOWN'S 1942 TAX RATE

Organizations applying for grants and council committees should make their requests before the next council meeting (Monday evening), Reeve Fred A. Lundy, chairman of the finance committee, told the town council Monday evening.

"Bringing in of estimates by the committees is only a farce anyway," said Councillor A. D. Evans. "Tell the finance committee to bring in a budget for 40 mills and divide it up."

"That is not a democratic way," said Mayor Dr. L. W. Dales. "Let the committees bring in their own ideas."

Later in the evening Mr. Evans said that the councillors had all expressed themselves at the nomination meeting as favoring a lower tax rate and that it should be set at 40 mills.

"It is now 41 1/2, and we probably could get it down to 41," said N. L. Mathews, K.C., clerk and treasurer. "I wouldn't want to promise less."

## Husband In Merchant Navy Injured At Sea

Mrs. Fred Lewis, Prospect Ave., received a cable on Tuesday informing her that her husband, who has been with the merchant navy since the first of this year, had been injured on board ship and that he was now in a Liverpool, England, hospital. No further details were given.

Mr. Lewis, who was formerly C.Q.M.S. at Newmarket training camp, after receiving his long service medal from the army, entered the merchant navy, where he had been serving as a cook.

## PLAN HOCKEY BENEFIT

The Office Specialty is sponsoring a hockey game with its sporting rival, Davis Leather Co., in aid of the Newmarket Veterans' soldiers' comforts fund on Thursday, March 5. Lawrence Molynaux of hockey fame will be the referee.

There will be a draw the same night and the same place for the same fund for a bedspread given by Mrs. Aubrey Trivett.

## Ask Homes Here Should City Be Evacuated

At the request of the mother superior of the order of St. John the Divine, Rev. G. H. Johnson read an appeal at Sunday's services in St. Paul's Anglican church for volunteers to offer their homes for inmates of the different St. John's homes for aged people in Toronto, in the event of their having to be evacuated.

Anyone willing to comply with the request was asked to get in touch either with the Sisters of St. John or the rector of St. Paul's church, after which a member of the order would call to make suitable arrangements.

## WHAT EACH CAN DO TO FORESTALL GESTAPO

Told By Capt. Muckle In St. John's Pulpit

Speaking in support of the Victory loan Sunday morning at both the 9 o'clock and 11 o'clock mass, Capt. Rev. W. D. Muckle, the pastor of St. John's R.C. church, made a strong appeal to each man, woman and child to fight in defence of his or her country.

## FIGHT ON BATTLE FIELD

"Many of our men are called upon to take up arms in the field of battle, or on the sea or in the air," said Dr. Muckle. "Many have already gone forth and, quoting from a letter of His Grace the archbishop, 'To them we are forever indebted. Day by day we learn with pride of their steadfastness, their loyalty, their ever growing courage to face unflinchingly the dangers and the difficulties still before them. They have shown themselves worthy of the best traditions of our young nation.'"

"As they go forth to do or die, with the fortitude of heroes, must be the fate of those who remain behind. It is their duty to fight the battles of their country, to reach the highest degree of charity. If, besides this, he fights to defend Christian principles against the enemies of God, he is a crusader in the sight of heaven."

## Fighting on Your Knees

Dr. Muckle asked all present to drop up their prayers, masses and holy communions for the Victory loan for our country, especially this week for the success of the Victory Loan.

"Children," he said, "can fight on their knees each morning by daily attendance at mass praying to God for guidance and strength for the leaders of our country and armaments, courage and protection for our fighting men, and the united effort of all the people of our allies as well as our own British empire."

## FIGHT WITH YOUR DOLLARS

"Every man and woman at home can fight as true soldiers—by making your dollars stand up against the enemy. Would you like to see your boy or some other mother's boy face the fully equipped enemy, without ammunition, without food, without warm clothing? Then loan your dollars to back up these boys at the front, so they will have some chance to win victory for you."

"Our country needs planes, tanks, ships, guns, ammunition. She must have these to save for us all that we hold dear, our homes, our liberty, our very lives. You can supply them by lending dollars to put the Victory Loan over the top."

"Do you want a storm trooper to meet you at your door some day as you return from work or down town and tell you, 'You don't live here any more, this is for Germans.' Such was done in Belgium."

"Do you want the Gestapo to constantly watch every move you make or listen to every word that drops from your lips in order to have an excuse to torture you. This is done in Germany and all countries occupied by Nazis."

"If you don't want these things, then buy Victory bonds to keep Canada for free Canadians."

## Must Not Surrender Rights We Fight For, Says Adjutant

ASKS ALL CITIZENS TO TAKE ACTIVE INTEREST IN PUBLIC AFFAIRS

"We can all be doing something for the war effort, whether in the army or in civil life, and the most important thing we can do is take a live interest in the way this war is prosecuted and the way this country is run," declared Capt. A. H. Woods, adjutant of the Newmarket training centre, in a challenging address on "The Dangers of Defeatism," in the town hall on Monday evening. The lecture was part of the Red Cross war emergency course, sponsored by the Home and School Association.

"In this war we've had too many speeches, too many words, and not enough action," said Capt. Woods. "It seems to me that over confidence must be avoided at all costs, but there is a danger that we may be stampeded because of such incidents as Hong Kong, Pearl Harbor and

## Newmarketer Sees Sister's Life Portrayed In New Film

J. E. MORRIS IS BROTHER OF HEROINE OF "ONE FOOT IN HEAVEN"

Newmarketer people will be particularly interested in seeing the much talked of picture, "One Foot in Heaven," which comes to the Strand theatre next Thursday and Friday evenings, as it tells the life story of Mrs. Wm. Spence, sister of a Newmarket citizen, and her husband, the late Rev. Wm. Spence. The experiences of this Ontario-born minister have been told by his son, Hartzell Spence, in the "best-seller" book on which the movie is based.

J. E. Morris of Newmarket is a younger brother of Hope Morris Spence, the charming and understanding young minister's wife, who is portrayed on the screen by the popular star, Martha Scott. Mr. Spence is portrayed by Freddie March.

Mrs. Spence has been a visitor in Newmarket twice within the last two or three years, at the home of Mr. and Mrs. Morris on Prospect Ave. Mrs. Spence is now the house mother at Iowa State College. Mr. Morris received a letter from her just last week.

Mr. and Mrs. Morris visited their nephew, the young author of "One Foot in Heaven," who is a New York newspaperman, in New York while on their honeymoon in 1930. While dining together there on one occasion the Morrises commented on some particularly delicious ice-cream. Mr. and Mrs. Morris were thrilled

on their first wedding anniversary the next summer to receive a package of the same kind of ice-cream, sent from New York, and it came part of the way by plane at that!

Rev. Wm. Spence, the hero of the film, was born at Newbridge near Stratford. After he had taught school for six years, he resumed his studies and attended Stratford Collegiate Institute and later the University of Toronto. After studying medicine for a while he entered Victoria College, Toronto, to begin study for the ministry. Upon completing his work he had a chance to take a charge in Iowa, where, a short time later, he took his young bride, Hope Morris of Stratford. Together they led an intensely interesting life in the work of the church.

The movie contains warm comedy and is a sympathetic and delightful story of the trials and tribulations of the life of a rural minister.

The film will be shown privately at the Strand theatre on Saturday morning to the town clergy, school principals and other representative citizens.

## WHAT WENT UP COMES DOWN

The people of Newmarket will excuse Reeve Fred A. Lundy if he exaggerates a little when he says that Newmarket is in "about the best financial position" of any urban municipality in Ontario. If an exaggeration, it is a pleasing one. The town council heard from the town auditor, George Vale, on Monday evening a report of which the town treasurer, N. L. Mathews, K.C., and the council and people of Newmarket may be proud. If depressions are ahead here is one town that is determined to get itself out of debt and face the future unburdened and undismayed.

If, on the other hand, some new phase of state intervention in the ups and downs of the business world is ahead, here is a municipality that is going to be in a splendid position to co-operate with the state and the citizen. Here is a town that is getting itself in financial shape to assume increased community responsibilities in health, education, recreation. Here is a town that is going to be more pleasant to live in, a town that is building for the future, not incurring debts to weigh down the next generation. Here is the sort of town that people are going to choose to live in and the sort of town that industry is going to develop.

The report indicated careful and conservative financing. The town is on the safe side, valuing its accounts receivable cautiously, providing substantial reserves against uncollectibles, paying off its capital indebtedness at the double march, incurring new capital indebtedness only at the point of the gun of necessity.

It is the same good judgment which has made the council hesitate about renovating the clerk's office. Now, however, the council has the recommendation of the auditor himself to proceed with this work. The auditor has recommended the installation of a better system of municipal bookkeeping and states that more space in the clerk's office will be essential. The council will no doubt feel that it cannot take the responsibility of not acting upon the bookkeeping recommendation, and will then have to struggle with the problem of necessary accommodation for a new bookkeeping assistant.

## DIVIDENDS FOR ALL

Sometimes it is suggested that the general public does not get value for money expended on education—that property owners who have not themselves children in school are just paying for advantages to others. But not so. Take as an example an imaginary 60-year-old bachelor who has owned real estate most of his life or who has paid his share of school taxes through rent. He is enjoying many advantages as the result of this public school system. First of all is his own education. Then he enjoys telephone, telegraph, wireless, radio, automobiles, electric refrigeration, better newspapers, and cheap books as a result of this public school system.

It is a war-time advantage, however, that comes to mind. The Canadian soldiers, sailors and airmen in this war, it is said, have an average of two or three more years schooling than our Canadian fighting men of the last war, and there is the word of General MacNaughton (as reported by Hugh Tompkins, Fergus editor) that well-educated men are needed in all branches of the service. War is becoming more of a conflict between machines than a conflict between men, but the men who operate these machines, whether they be tanks, planes, submarines, radios, or

machine-guns, need education. So today every citizen of Canada, whether he or she has or has had children in school or not, is benefiting in this way as well as in other ways from our public school system.

Members of Newmarket's school boards do not need to apologize to anyone for the money they are spending, or have spent, or propose to spend on the education of our children. The money they have spent has made the town and the world richer and is today contributing to the defence of Canada and the prosecution of the war. The money they are spending and propose to spend will contribute to the "reconstruction" that we all hope will follow the war.

Because so few people read more than one daily newspaper few people will have noticed that the Toronto Daily Star last week did not choose to carry a well-known distiller's "Victory Loan" advertising which appeared in other newspapers. Such advertising, like similar advertising on billboards and on the programs of Victory Loan concerts, even though sent out in the name of patriotism, is illegal in Ontario. The liquor industry, with a \$200,000,000 turnover, is one of the government's chief competitors for Mr. Citizen's dollar and it is not helping the government with its circumvention of a well-founded law against liquor advertising.

A friend and a Conservative took issue with us because we said two weeks ago that all the Conservatives "need do now is to rid themselves of the outmoded ideas that went with that leadership." So far as we know, Argue Martin, president of the Hamilton Conservative Association, does not read The Era, but he is reported by the Globe and Mail as having said this week that "the Conservative party must broaden its base, adopt policies which will attract the youth of Canada, and discard outmoded ideas."

### HITLER'S INSTRUCTION APPLIED AT OTTAWA

(The Toronto Telegram)

If a lie is repeated often enough, most people will come to accept it, says Hitler in Mein Kampf. And he adds that the bigger the lie the more readily will it be believed.

The accuracy with which Hitler has gauged human weakness is heartily approved by the Liberal and C.C.F. parties at Ottawa. They not only approve Hitler's idea, but put it into practice and count that day lost when they do not smear the Conservative party with a lie to make it appear the enemy of the common people.

Mr. Hon. Arthur Meighen correctly voiced the spirit which animates Conservatives when he said: "We stand behind demands for every sacrifice, however extreme, every sacrifice whether of time, money, property or income as well as men for the army, so long as the laws making these demands are equitable and fair and apply everywhere without discrimination."

That was the position taken by Mr. Meighen from the outset of his campaign, yet it did not prevent the C.C.F. candidate publishing a garbled account of one of his speeches which made it appear that Mr. Meighen would not agree to an imposition upon wealth except at "the last gasp." And it did not prevent A. W. Roebuck, M.P., declaring on behalf of W. L. M. King's party that Mr. Meighen represented those who would conscript the widow's last son to defend the millionaire's last dollar.

The Conservative party has no corner on millionaires, though to listen to the talk of their opponents one would think that every Liberal and exponent of C.C.F. views was going about with the seat out of his pants. It was this kind of drivel that E. H. Corman (Lib.), of Wentworth, indulged in when he told the house that little is heard from the total war group of conscription of profits and capital. "Conscript the boys, but hands off our dividends is their policy," he declared.

So far as we are aware, no one in Canada has sponsored such a policy. Mr. Corman has invented the idea, perhaps, because he feels it will help his party which went down into the Valley of Humiliation in company with certain millionaires some years ago. He cannot think that the utterance of his falsity will help the country.

WOODY FALLS FOR SOME HUMBBUG

BY RUTH DINGMAN HEBB

"It almost looks as if we were going to have a late spring, doesn't it?" Slaty, the Junco, called pleasantly up to his chum, Woody, the Downy Woodpecker.

"Oh, I don't see how you can tell that already," disagreed Woody. "After all, this is only the last week in February."

"Yes, of course, I realize that," answered Slaty crisply. "But, if you will think back to your bird lore, you will realize that quite often the first Robins and Meadowlarks, etc., come back before the end of February. But it doesn't look as if they would this year, not if the next few days are like today, anyway. Why, this is a typical midwinter day—cold and sunny, with quite a bit of snow. It looks more like January than February."

"Here come some Cedar Waxwings, six or seven of them," exclaimed Woody. "Let's ask them what they think about spring."

The Waxwings settled in some evergreens and Woody asked them whether they thought the coming of spring would be late this year.

"Good gracious, I'd hate to express an opinion on that," one Waxwing said timidly. "The weather always seems to do just the opposite of what we expect. It certainly looks very wintry now, but, who knows, in another day or two it may turn warm and the snow may all melt away in a twinkling and our early spring birds will be coming back."

"You Waxwings are so polite I don't think you could express a positive opinion one way or another, in case you might hurt someone's feelings," said Slaty from the ground.

"Listen, folks," Woody remarked just then. "I think we've all been fooled and the spring birds are coming back in spite of winter weather! I could

swear that I heard a Bluebird just now. Surely I couldn't mistake that Bluebird's warble."

"Listen, everyone!" Slaty commanded. "The birds all listened carefully and, sure enough, quite a musical warble came from the direction of some Manitoba Maple trees. Slaty looked up in the direction from which the sound had come."

"The oldest gag in the world!" he exclaimed. "I'm surprised, Woody, that you didn't look for the bird instead of jumping to conclusions. However, some of us get fooled that way every spring, without fail."

"I don't quite follow you," a young Waxwing said politely. "Wasn't it a Bluebird that your Woodpecker friend heard?"

"No, of course it wasn't," Slaty answered. "It was a Starling, trying to be smart and fool the public."

"I think the reason that we make that mistake so often at this time of year is that we are hoping to hear the spring birds' songs, and if we hear anything resembling them we jump too quickly to conclusions," said Woody rather apologetically.

"That bird gave a wonderful imitation," one of the Waxwings hastened to say soothingly. "I don't blame anyone for mistaking it for the real thing."

"Has anyone seen Horned Larks yet?" inquired Woody loudly, trying to divert attention from his blunder. "They certainly should be around any day now. They don't mind the snow."

"I haven't," Slaty said, "but I'm on the lookout. They build their nests so early, often among the snowdrifts. There are sure to be some of them around now."

"After this, I won't believe anything until I actually see it," Woody mumbled to himself, and jabbed savagely at the tree trunk with his strong bill.

skaters but the woodworkers displayed more finish around the nets, which resulted in a single tally lead going into the second frame.

The defence work of Ken Woodcock and "Bub" Preston for the metal "Jeeps" thwarted the woodshop offensive on many occasions. Goaly Gord. Gardiner was brilliant on many of his saves.

Murray Boyd scored his team's second goal early in the second, only to have that little hornet of swing, Grant Crowder, former Aurora junior star, slip a nifty past Jackie Groves to make it 2-1.

The "Jeeps" threatened to tie it up as Bub Preston's shot sailed high over the net but Pete Neufeldt increased his team's lead to two goals as he fooled Gardiner with an angle shot.

The third period found the Gibson boys, far from discouraged, facing a two-goal deficit. They played the woodworkers off their feet to knot the count at three apiece as Elmer "Tubby" Yates caused the red light to blink twice on labelled shots.

The overtime session was really hot as both teams accelerated the pressure for the deciding counter. However, after six minutes, "Doc" Boyd proved to be the "Merriwell" boy as he caught Gardiner completely off of position, making it 4-3 for the north of Timothy St. boys.

It was a decided win for the British War Victims' Fund, as the profits came to a little over the \$218.25 mark.

Between periods sons of members of the Lions club engaged in a broom-ball tussle, with that popular veteran, Bill White, acting as chief official.

A platoon of soldiers from the camp were on hand with an unorthodox display of rifle drill. The crowd enjoyed the antics of the military boys. The lucky draw brought out the name of Mrs. Bill Walsh.

Metal: goal, Gord. Gardiner; defence, Ken. Woodcock and "Bub" Preston; centre, Dennis Benville; wings, Harold Dennis and Tidman; subs., E. Yates, Grant Crowder, Johnny Heise, Joe Cribbar, Melvin Ruddock, Lou Ganton, Claude Elmer Waggon, Scarborough, Elmer Waggon, George Stuart, Gene Broughton, Joe Alderson assisted Eddy Gibson with the metal boys. ## The Common Round

CRUELTY

By Isabel Inglis Colville

Never, I suppose, since the persecution of the Christians under the Roman emperors, the torture chambers of the feudal barons in the middle ages, or the Spanish Inquisition has there been such a display of organized cruelty as the Gestapo practise on Jews, and on the helpless civilians of the conquered countries. We shrink appalled as we read of beatings, even to the death, of starvings and bone crushing and yet, because we do not SEE them, nor experience them, they only give us an uncomfortable short session and then we think, "It's terrible, but what can we do about it?"

Well, maybe not about that but, just as wise folk say, we should be educated in the ways of peace and only so, as each nation teaches those ways, will we be able to preserve peace once it settles on our world again, so if we are to understand the results of cruelty and its prevention, we should be educated in the ways of kindness and tenderness.

If we are to be a humane race, free from the sadistic beastliness of the Germans, our education along humane lines will have to begin VERY early in the home and be emphasized in the schools.

Just lately I have tended a cat dying of blood poisoning from a shot—meant maybe for a rabbit—maybe just wanton shooting—I've seen that too.

Perhaps if the hunter had seen his victim he might be more careful to shoot to kill, if he has to shoot.

And we've had four cats the victims of traps—paws and legs torn to ribbons—surely some day the steel trap will be abolished.

One day a friend said to me, she was watching the hunt club go by—I wasn't—"Why don't you write about the hunt club

going out—it's gay and colorful." And the only thing I could say was "I see no gaiety, only a poor exhausted fox tossed to a pack of dogs."

Foxes must be killed—let the farmers when they trouble shoot them when the need arises. All those who take part in any of these cruel acts would be the first to be enraged if a pet of theirs were injured, but it is nice to think that some men have and are devoting their lives trying to make people realize that every animal that can be tamed deserves decent treatment and when death must come a quick death.

What Grey Owl did for the beavers will be his best memorial and served to show the intelligence of an animal that had been hunted and tortured to almost the verge of extinction for years.

And now Emil Liers of Homer, Minnesota, is doing for the otter what Grey Owl did for the beaver. It is estimated that only about 5,000 otters still exist in all North America. They have been relentlessly hunted, partly for their fur and also for the now disproven idea that they lived entirely on fish.

Liers has trained them as house pets, for zoos and to do everything a dog can do, and is now trying to have a certain amount of government protection for them.

Children can be unthinkingly cruel or they can be taught to respect the rights of the helpless. And just as they are so taught will their inclination be to preserve and not to exterminate.

Wild life has to be kept within bounds but it can be done with at least a semblance of humaneness and we can keep the ROOT of cruelty from growing and become a tree whose fruit is unthinkably evil.

A greater attempt must be made to organize our effort, not only our manpower, but all our activities, on a definite plan. We don't plan our economic life, we leave it to a haphazard system. It ought to be the mission in life of all intelligent citizens that our

## POLICE COURT

### Owner Fined, Car Driven By Unlicensed Person

Charged with failing to have a 1942 operator's license, Capt. T. Cochrane, Camp Borden, was fined \$10 and costs or ten days by Magistrate W. F. Woodliffe in Newmarket police court on Tuesday.

A further fine of \$1 and costs or two days was imposed on the defendant for not having 1942 license plates on his car. Provincial Constable Alex. Ferguson told his worship that he stopped Capt. Cochrane's car in Whitchurch on Feb. 1.

For failing to have a 1942 operator's license, C. G. French, Toronto, was fined \$10 and costs. On two other charges, failing to produce a registration certificate at the request of the police officer and not having 1942 license plates on his car, the defendant was remanded for sentence.

For permitting an unlicensed driver to drive her car, Mrs. Frank Clark, Zephyr, was fined \$5 and costs.

Charged with parking, Edwin G. Baker, Toronto, was fined \$5 and costs.

Pleading guilty to a charge of careless driving, Russell Stork, Keswick, was fined \$10 and costs or ten days.

County Constable William Hill, Sutton, who on Feb. 4 investigated the accident in which the defendant's car was involved on the county road about a half mile west of Sutton, told his worship that when he arrived at the scene at about 7:30 p.m., Mr. Stork was standing at the side of the road and the car which he had been driving was being towed out of the ditch.

The officer stated that tracks showed that the car had travelled 123 feet on the wrong side of the road before entering the ditch, where it continued for another 166 feet before it was stopped by a pile of snow. No damage had been done to the car.

In answer to the query of Crown Attorney N. L. Mathews,

K.C., Constable Hill stated that "there was a snowy surface, but I wouldn't say that it was slippery." In reply to further questions of the crown, the officer stated that the defendant had been drinking.

"Did he give any explanation as to the accident?" asked the crown.

"He said that he'd been lighting a cigarette and the first thing he knew he was in the ditch," replied Constable Hill.

Asked by Magistrate Woodliffe if he had ever been charged with a similar offence, Mr. Stork said that he had not although he had been driving for about ten years.

His worship dismissed a charge of dangerous driving against Mr. Stork.

## TEMPERANCEVILLE

### Groups Discuss King Township Soil Survey

"Will the Soil Last?" was the topic discussed by Temperanceville farm radio forums on Monday evening. This was of special interest to local groups because of the conditions brought to light a few years ago by the survey of King township. It was found that forests covering 80 percent of the area have been reduced to scattered woodlots covering only 11 percent of the township, and half of these are grazed.

With the destruction of the forests, there is nothing in the soil to hold the water. Rain and spring floods quickly washed away into the streams and in turn these have dried up. All but 30 miles of the original 200 miles of flowing streams have ceased to flow for part of the summer. Seventeen percent of the wells have failed and five percent more do not give adequate supplies. The rapid loss of the water has meant that some soil has been washed away with it.

According to "Farm Forum Facts," these conditions are typical of the whole of Ontario. There are now 8,000 square miles in this province unfit for anything but trees.

The south forum expressed the opinion that the soil in this area is not as good as it was when first cultivated and that the quality of the grain is not as good. A number of those present were able to give considerable information on soil surveys conducted throughout the county.

In spite of soil depletion, the group maintained that the problem in this community is not as yet so serious that it cannot be overcome by good management and proper rotation of crops.

The north group felt that low returns for farm products had prevented farmers from using proper fertilizers and working the land properly.

In reply to the question, "What effect has the condition of your soil on your income and on your community?" the north forum said, "Poor soil—poor income—poor community." Suggestions for conservation were: reforesting land unsuitable for crops, regular rotation of crops, seeding legumes and plowing around hills instead of up and down.

Both groups maintained that a co-operative should not go into

of Mr. and Mrs. S. Boyd.

Mr. and Mrs. Robert Stickwood and John were Sunday dinner guests of Mr. and Mrs. Roy Stickwood, Queensville.

Mr. and Mrs. Harford Wardell, and Mr. and Mrs. Herdman, June and Earl, spent Monday evening with the Fairbairns.

business without first securing sufficient finances. The north forum felt that efficient management, a modern business set-up and quality tested products were necessary in order to compete with the chain stores and large corporations.

Neil Morrison of the CBC attended the meeting of the south group, held at the home of Mr. and Mrs. C. Beynon. Mr. Morrison is one of the men in charge of farm forum broadcasts and he called for any criticisms and suggestions in regard to the broadcasts. Wilbert Jennings convened the meeting and Clayton Beynon conducted the recreation.

The north forum met at the home of Mr. and Mrs. C. Henshaw, with Mrs. A. Harman as convenor. Mrs. G. Baldwin conducted the recreation and each person wrote a limerick about someone present. The group also listened to President Roosevelt's fireside chat.

Next week the forums discuss "Selling Together," when they meet at the homes of W. Jennings and G. Baldwin.

An open meeting will be held in Temperanceville church next Thursday evening at 8 p.m., E.D.S.T., when Hon. George Hoadley will speak on the "Municipal Doctor System."

## MOVIES

### PARADE

"Blues in the Night," a gay musical comedy starring Priscilla Lane and Lloyd Nolan promises to be an outstanding weekend picture at the Strand.

On the same program is "King of Dodge City," starring Bill Elliot and Tex Ritter, an action-packed hit, with flaming guns and flying fists providing breathless drama.

Ablene, overrun by a renegade band, is a hot-house of corruption. Ritter is appointed sheriff, while in distant Dodge City, Wild Bill is approached by an Ablene citizen and asked to clean up the town.

He undertakes the job, and discovers enough to make him as suspicious of Ritter as Ritter is of him. Their mutual antagonisms are deepened by their interest in the same girl, lovely Judith Linden, a blonde charmer.

"Honky-Tonk," which opens at the Strand on Monday for a three-day stay, co-stars Clark Gable and Lana Turner for the first time and brings together several members of the "Boom Town" company. Gable starred in both, while Frank Morgan and Chet Wills, feature players in "Honky-Tonk," were also in the cast of "Boom Town."

While "Boom Town" dealt with the early days of the oil industry, depicting Gable as a "wild catter" who made and lost several fortunes, "Honky-Tonk" tells of the pioneer days of the frontier west when the rush for gold brought motley characters from all corners of the earth in its train.

Clark Gable and Lana Turner are supported by a stellar cast, including Frank Morgan, Claire Trevor, Albert Dekker, Marjorie Main and Chet Wills.

The plot concerns the efforts of a fast-talking "con" man to take over the city of Yellow Creek. He is temporarily stopped, however, by a girl from Boston who takes him over the hurdles.

Frank Morgan plays the role of Miss Turner's father, Claire Trevor as "Gold Dust," a frank frontier-woman in love with Gable, an important part and Albert Dekker, seen with Gable in "Strange Cargo," battles him again in "Honky-Tonk." Comic relief is supplied by Chet Wills and Marjorie Main.

Norman Fockler of the R.C.A.F. left on Monday for Halifax after being home on ten days leave.

Geo. Mitchell was home for a short time on Sunday.

## In Memoriam

Andrews—In loving memory of a dear wife and mother, Mrs. Wm. Andrews, who passed away on Feb. 27, 1940.

Now the laborer's task is o'er, Now the battle day is passed, Now upon the further shore Lands the voyageur at last.

She is not lost but gone before us, Let her never be forgot, Sweet her memory to the lonely, In our hearts she will perish not.

He has taken now our loved one, We have seen her leave our side, With our Saviour we shall meet her, When we cross the rolling tide.

Sleep, dear mother, sleep, thy work is done, Thy toil is o'er, thy crown is won, How sweet to sleep on that blessed shore Where pain and sorrow are no more.

Ever remembered by husband, Ted, Mabel and Bruce.

Lunney—In loving memory of our dear father, Richard Lunney, who died March 1, 1940.

Gone from us, but leaving memories, Death can never take away, Memories that will always linger While upon this earth we stay.

Sadly missed by Chesley R. and Stanley Lunney.

Lunney—In loving memory of my dear father, Richard Lunney, who died suddenly two years ago on March 1, 1940.

No one knows how much we miss you, No one knows the bitter pain We have suffered since we lost you, Life has never been the same.

In our hearts your memory lingers Sweetly tender, fond and true, There is not a day, dear father, That we do not think of you.

Sadly missed by daughter, Vera, and her family.

Rowland—In loving memory of a dear husband and father, James A. Rowland, who passed away Feb. 25, 1940.

If all the world were ours to give, We would give it all and more, To see our dear father's smiling face Come walking in our door.

Lovingly remembered by wife and daughters, Lila and Delores, and son, Lexy.

Rowland—In loving memory of my dear father, James A. Rowland, who passed away Feb. 25, 1940.

It's only a grave, but it still needs care, For the one we love is sleeping there, Some may forget, now that he's gone, But we'll never forget, no matter how long.

Sadly missed by son, Bill (131099), overseas, and daughter-in-law, Grace, of Toronto.

## YOUR MONEY AND YOUR LIFE, SAY SPEAKERS

"There is still too much complacency," Mayor Dr. L. W. Dales said in a Victory loan appeal at Trinity United church on Sunday morning.

"Singapore has fallen," he commented. "If Gibraltar falls, anything can happen. It is no use saying that we always win the last battle. It might be otherwise. When history is written centuries hence it will be surprising how close the British Empire came to losing this war and suffering a defeat from which it would not recover for many centuries."

"In fact, I venture to say that in this town of Newmarket, before the war is over, there will hardly be a family that hasn't had a bereavement or been affected in some direct way."

"Our duty is to subscribe not what we can afford but more than we can afford, to protect our homes, our schools, our way of life. More battles have been lost at home than in the front trenches."

"Your money and your life" was the subject of a Victory loan appeal by Rev. Dr. A. E. Runnells.

"The future destiny of mankind depends upon how the U. S. A. and the British Empire dispose of their wealth now," he said.

"There is something very paralyzing about money," he said. "The more men get the more they want. Riches can make a man think that he is growing bigger when all the time he is growing smaller. A man can think that he owns a fortune when really a fortune owns him. Money is the root of all evil."

"Shall we pay our debt? And acknowledge our obligations?" asked Dr. Runnells after reviewing how freedom had been won through the ages. "God forbid that in an hour like this any man should hoard his wealth."

The clerk was asked to send a cheque for \$293.15 to the Bradford Drainage Commission, according to the requisition from the West Gwillimbury township council.

The road superintendent was authorized to purchase from Chas. Walton cedar stringers and posts, at the best price obtainable, and to use his judgment as to the quantity necessary for the township work.

After approving payment of an account of \$210.05, balance of legal fees owing to J. D. Lucas, township solicitor, for 1941, the council passed a resolution asking for an itemized statement. Councillor E. M. Legge asked for a recorded vote, voting against the resolution and Messrs. MacMureh, Goodfellow, Barker and Warkington voting in the affirmative.

The council then passed a resolution moved by Councillors Barker and Legge asking Mr. Lucas to submit in writing a yearly salary for future legal work.

The council passed a highway expenditures by-law in compliance with a memo received from the department of highways. The items in the by-law for road and bridge construction were struck out and these items, that is \$10,000, were added to maintenance and repairs.

**DEBENTURES GO DOWN**  
(Continued from Page 1)

year that we could have put on debentures," said Mr. Evans, chairman of the water and light committee. "We paid as we went. This year we did a bigger business."

"Newmarket is in about the best financial position, taking its area into consideration, of any urban municipality in Ontario," said Reeve Lundy. "Of course there are some rural municipalities without any debenture debt."

Mr. Lundy paid tribute to assistance rendered the town by H. E. Lambert, manager of the Bank of Toronto, and commented that in spite of Newmarket's economies last year Councillor Frank Bowser had kept the "pavements in good condition." He also commended the Sunday removal of snow from Main St.

Mr. Mathews quoted the auditor's report concerning "inadequate accommodation at the clerk's office." "The heating system in the front room constitutes a real fire hazard," the report said.

The auditor recommended that a "complete system of municipal bookkeeping be installed." The town would be repaid in "better service to the public." An "additional assistant in the office" would be needed.

"We are doing \$150,000 to \$200,000 of business and the only book we have is a cash book," said Mr. Mathews.

"Why haven't you got a proper system?" asked Mr. Evans.

"We haven't room or staff," said Mr. Mathews.

"We should have had a proper system years ago," said Mr. Evans.

Mr. Mathews said that he had been talking to a supervisor from the department of municipal affairs who thought that Newmarket would have a clerical staff of five persons.

"A great deal of the work is done in my law office," said Mr.

Toy Balloon Travels  
Here From Erie, Penn.

One of two gas-filled toy balloons, released in Erie, Penn., on the U.S. Thanksgiving day last fall, was found a few weeks ago by Edward Tidman, R. R. 3, Newmarket.

The balloon had a card attached to it bearing the name of the sender, which requested that the finder communicate with him. This Mr. Tidman did and recently received a reply.

The sender of the balloon was Richard Santia of Erie, who sent the two balloons up simply to see how far they would travel before dropping to earth. He told Mr. Tidman that the other balloon had travelled over 300 miles and had been found in Lebanon, Penn. The balloons were filled with natural gas.

Mathews. "We need mother help in the clerk's office but there is no place for her. The back office is too cold in the winter time."

"It's almost a miracle that we have been able to satisfy the department of municipal affairs," said Mr. Mathews.

"The Underwriters' Association recommend four paid firemen," said Mr. Evans. "Where would we be if we accepted all recommendations?"

"The clerk's office needs rearranging," said Mr. Bowser. "There is not enough floor space," said Councillor J. L. Spillette.

"We are approaching the time when our contract with the Ontario Hydro expires," said Mr. Lundy. "I think that when that comes the light business should be divided from the rest of the town business."

## English Snow Makes

## Canadians Homesick

According to letters received from Aurora boys overseas, last month in England saw the heaviest snowfall in many years.

One lad, overseas since 1940, writes: "We had the biggest snowfall here in years and years during the past week. There was at least two feet of real nice white snow on the ground and it remained for a few days, something unusual over here. Ordinarily if it snows it only lasts for a day and disappears, but this was the real McCoy and the snow-clad hills and trees were shades of the past. It made us all homesick. I can't understand why they don't throw us in somewhere. Anything is better than hanging around here."

# DOWN THE CENTRE

Gordon Fanning, utility-player with Aurora Tigers two years ago, is another former Aurora hockey player in the army.

Fanning is with the Ordnance Corps at Kingston and is one of the players picked by the Kingston garrison team in the inter-military district hockey championships. While never a star, Fanning was a faithful, durable player who always gave his best and possessed fine team spirit.

The Tigers, all boys just over military age, have done pretty well so far as enforcements go. Joe McGhee, Joe Tunney, Jimmy Lowe and Frank Michalik were with the R.C.A.F. Dave Murray, Harry Pearce, Fanning, and Grant Cook are with army units, three of them across the pond.

Jim Lowe is stationed away up near the Alaska border with the air force. Lowe is the only one of the crowd still young enough for junior company. Not one of them went to serve their country by way of the draft route either. "Mutt" Collings, another Aurora player of a vintage a year earlier than the Tigers, is still with his unit at Halifax, N.S., but confined to hospital from an injury received at Camp Borden. Mutt hopes to be on his way overseas soon.

Chuck MacMillan, captain and centre of this year's St. Andrew's juniors, finished in fourth place in the group scoring race with no less than 16 points. Ingoldby of De LaSalle, best individual player in the whole group, finished first with 20 points. MacMillan was second in goals with 13 but had only three assists. It is a fine record for the lad considering St. Andrew's were the fallenders of the group. Speaking of scoring we noticed that Tommy Burlington, who played with Owen Sound Greys, and now with Atlantic City Seagulls in the E.U.S.H.A. senior group, won the league honors with a little matter of 102 points, to break the existing record. That's high scoring.

Newmarket Camp must look at Camp Borden's line-up and figure how they missed the intermediate B title by reason of transfers. Les Colvill of the Oshawa Generals, Gar Peters and Howie Reid of Oshawa Bees all passed through the portals of Camp Borden.

Benny Harris, the merchant who has played a few games for Sutton Greenhills this year, is also with the Bordenites. Whether or not he will play with Sutton again this season is highly problematical.

Milton Tigers pulled the unexpected, eliminating the first place Etobicoke Indians in a four game set. Etobicoke took the first but after that the Milton team were never headed.

Harry Nash, the Cokes' goalie, is

mainly credited for the debacle. He was nicknamed "Sleeve" once but on his showing over the regular schedule route didn't deserve it. Apparently it was all a bit of luck, as they were scoring them from the blue line against him according to reports. Only a youngster of 16, he became pucky shy in the finals.

Murray Allen, one of the 19-year-olds on the team, who also plays commercial and looked like one of the best defencemen in junior C, went berserk in the series and in two games had seven penalties, all of which were capitalized upon by Milton.

Ringers are claimed to have been run into the game by Milton. The Etobicoke officials told the writer that at Milton in the second game two newcomers were dressed in Milton sweaters who didn't check with the names on the referee's sheet. They disappeared at the end of the second period before a check could be made. A new player by the name of Graham also turned up in the series and, while he may be a signed player in good standing, he certainly wasn't a few days before Feb. 18.

Murray Scruton says this is his last year in junior hockey. The actions of Milton and Markham teams and officials have disgusted him with junior hockey. Relations with Aurora were friendly all season and if the Cokes had won and Aurora lost the two clubs would have played their entire series here in Aurora rink.

Red Ink will again be written into the ledgers by the Etobicoke and we imagine next year Scruton, Mackie Hackett and Annis Skukus will be back in action again. They have a fine bunch of young players and, with most of them having two years more to play, pay-off dirt would have been struck sooner or later.

Pendelbury and Allen are the only two who pass out of junior hockey ranks. The Cokes were favorites in many centres to take the title and their passing-out of the picture was a distinct surprise to the critics.

Take Reg. Singleton off the line-up and their scoring record wasn't impressive. In fact both Markham and Aurora snipers got more goals over the season. Defensively throughout the schedule the Cokes were tops but in the play-off they were wide open.

The post has been written that The Sadler-Woods of tongue and pen are those old familiar "night" have been, and when you think back to that game last Thursday and the four-goal lead that melted away like a snowball in the well-known proverbial hot spot you feel very sad to say the least. Aurora juniors, after a first-period offensive that was par excellence, wilted in the stretch and lost the game to a stronger, better conditioned and harder fighting Markham team.

What the team really lacked was one player capable of giving the team a lift when they were in the doldrums. Del Beaumont set his teammates an example for effectiveness and gameness but he is a quiet lad. Harold Capra, probably the talker of the players, was off color and couldn't give his mates the example plus talk that was needed. Markham had the spark, so vital to champs, which could not be quelled.

Loading back, the second game in Markham, which the locals lost 8-6, was the game that really set the boys on their heels. The loss of Mervyn Broughton, who all season quietly carried a heavy defensive task on his shoulder, upset the team badly. A player like Broughton, more experienced than the rest and a member of a former championship squad, might well have held

the Generals at bay.

All season the team indicated that they could not play a defensive game, and an offensive campaign for 60 minutes requires more concentration and more practice than the team possessed. The round was really lost with that 5-4 loss in the second game when with any luck the story would have been different. It was not to be, however, and the fans would do well to remember that of this year's Aurora team only two boys will be too old for junior next year and practically every team that takes honors have the majority of their boys playing their last year.

Del Beaumont with four goals in one game gave one of the best offensive displays of the entire season.

Aurora in the five play-off games actually outscored Markham 27 to 24 and over the season they had a one-goal margin of one, 38 to 37. In seven clashes Markham won four and Aurora three, so that there is actually little difference between the two. After the game Markham players admitted the breaks had gone their way in the third period. Scoring records show Del Beaumont, ending the season with 31 points. Eighteen were goals and 13 were assists, but evidence of his worth as a money player is shown by seven play-off goals and six assists.

Harold Capra finished second with 26 points. He had 20 points when the regular schedule finished, and as you can see, if he had kept up his sniping in the play-offs Aurora would have been in. That was one big gun Markham silenced. George Stark was third with 18 points. He went fairly well in the final series but not up to his early season form. Myles MacInnis and Bruce Stephens were tied for fourth place with 16 points each. Both boys were flying in the play-offs, MacInnis hanging home six counters and Stephens four. It was too bad that in the final game MacInnis, suffering from a cold, played his poorest game of the season.

Merv Broughton had 11 points all accumulated in the last five games prior to his injury and he was just rounding into shape. Eric Bilborough had ten scoring points and was used only an odd time in the play-offs. He might well have been given a chance in that last period Friday, as he had not been used and a fresh man could have battled the puckchasers on both teams with equal chances of success. Ken Nash had eight scoring points and he is another boy who was just getting going nicely.

Ross Tunbridge had 11 scoring points and over the season did not display the form that made him a stand-out last year. Illness and a not collaboration were two reasons for this, so we shouldn't judge too harshly. Blair Thompson, Abramams and Joe Turnbull all picked up useful two-point averages but of course they were only in a few games.

Upsets have never occurred in the local C group before. The first and second teams have always survived the first round and met in the finals and until now the team finishing first over the schedule always won the group. We are witnessing a clash for honors between the third place and fourth place teams, with the two young giants picked as a toss-up for group honors both ousted.

Milton is our favorite to win the group. The bricklayers have a better netminder, and such players as Joe Schiffrin, Orrie Carter, and Red Gillespie are playing hot right now and in any case rank with the best. Besides, Milton have a big chance coming to them. It wouldn't surprise me to see Oakville bump off the worn-out group winners.

Parry Sound and the locals will likely clash in the Sound tonight in an exhibition tilt that was just about completed at the time of writing. The Saunders have re-

ceived permission from the O.H.A. to secure a wartime replacement goalkeeper and they want either Mike Hamilton or Frankie Hughes. If the game goes on, Hamilton will work against his teammates and the youthful Frankie will protect the local cage. Both boys will battle it for the job with the northern semi-finalists. Neither one, of course, will be released permanently but just for the balance of the season. Both have expressed their wish to play here again and are completely satisfied.

Ross Waddell was loaned last year and didn't return and we hope it won't be duplicated. Incidentally, Ross is still out of the game.

and that cut we told you about required no less than eight stitches. The lad took a turn for the worse later and his sight was feared for. Now he is O.K. again.

Sutton Greenhills got off to a fine start with that 5-3 win over Milton and should take the group. Ellis Pringle wanted Aurora juniors to play in Sutton on Tuesday in a practice game but owing to the Parry Sound trip the boys couldn't make the grade.

"Fat" James was home on leave and saw the Markham game and expressed the opinion that the "Pine Orchard" boys were as good as ever. Fat, who is at Petawawa with Connie Smythe, played several games with the Bombers from his camp, who are cutting quite a dash these days but illness forced him to the sidelines and, as Fat puts it, "The army teams don't play favorites. Another man takes over his place and the team carries on and when you're well you have to wait for somebody to get sick to get back in the line-up." Fat looks well and likes soldiering.

Walter Kilnack, the Oakville netminder, guarded the nets for Oshawa junior B team last year and they were finalists. Bus MacInnis, with Rattie Somers out of the contention, has plenty of time to get Oakville into shape and the Lakeshore boys are practising faithfully at Frank Taylor's igloo. Skippy Northcote, who has played fine hockey all season for Markham, has had quite a bit of goal-keeping experience, so when he comes to the cage against Oakville that final game of the group he has the best material available. He plays goal for Highland Creek in the rural league when Dick Schadt isn't there and really started out in hockey as a netminder. Guess those Oakville tallies were really earned.

Harry Lindsay of Barrie has joined the army service corps and is butchering alongside Frank MacInnis. Lindsay will remember as a member of the Colts when they played against Tigers. Both teams have done their bit. From that same Colts aggregation no less than eight boys have enlisted.

Junior basketball titles have been decided in the North York interscholastic with Aurora boys and Newmarket girls winning out. The junior girls were a nice-looking bunch of youngsters and came back strongly in their game here to win. It is too bad the score wasn't properly kept but the Newmarket lasses were really the better of the two. Norm Johnson's juniors, while largely a bunch of individualists, are pretty classy and there is plenty of good senior material coming up.

Aurora senior boys need but one shot to take their group from Pickering while Aurora girls can duplicate that by a win at Richmond Hill. Both squads should have no difficulty in doing that little thing either.

Schomberg-Ting hockeyists have sent six boys to the armed forces. The late George Davis was with the air force, Bill Sutton is overseas with the Hussars, Jess Turton, Mike Duggan, Henry Hollingshead and Gary Woods are all with the army, serving overseas, while Howard Pollock is with the boys at Borden. Bob Mould, fully recovered from his operation, took time out to remind the writer of this fact this week. Bob had intended to enter a juvenile team at Nobleton but the league fell through by way of squabbling.

Bradford will definitely not compete in the O.R.H.A. playdowns. Players are at a shortage without an expansion of eligibility rules. George Latham, the Etobicoke star who was stolen from Murray Scruton at the start of the season, has finally been granted a playing card, with Etobicoke out of the running, and has already played for Bramford. Why Latham did not play previously, we can't guess, but it seems significant that he didn't until after the Cokes were put out. If they had won, we suspect the Lions would have let Scruton have him again for the C playdowns.

Don Lawson, who played goal for U.C.C. against Aurora and St. Andrew's on many occasions, played the nut for Royal Military College in the army tournament this week. Can't figure why Newmarket Camp didn't take in the tournament. They would have had a good chance to go places.

Ferguson. Mrs. McClure read the scripture and Mrs. Ferguson gave a brief talk. It was a heartening service, as Thornhill has been having a hard time.

The Eversley W.M.S. meeting was held on Thursday afternoon at the home of Mrs. Rock. The attendance was small, but the program was much enjoyed, as well as the social hour at the close.

The world's day of prayer service was held in the Anglican church on Friday afternoon. As the theme, "I am the Way," was divided into four parts, there were four Women's Missionary Societies taking part. Each conducted a section and prayers were given by each. It was a good service. The attendance was fair considering the extremely cold weather.

Keeping the home fires burning is a full time job. The fuel seems to melt away.

"We haven't begun to mobilize our industrial and labor forces for war. With that in mind I think we should put every possible ounce of energy into making a success of the war loan."

Sixty-Nine Farmers Attend Special Course

A two-day farm management course, the first of its kind in York county, was held in Richmond Hill on Tuesday and Wednesday of last week. This course was conducted by H. R. Hare of the economics branch, Ottawa, and R. M. Miller of Markham.

There was an average attendance of 69. Mr. Hare stressed the need for an increase in the volume of farm business without using more land or increasing the amount of labor needed. He also stated that a set of practical farm accounts on each farm and a yearly budget were long overdue, and gave easy methods of drawing up a budget and increasing the volume of business to make it balance.

Many of the farmers resolved to set up a system of accounts, and it is hoped that another course may be arranged next winter to straighten out any difficulties that may arise.
